SUMMARY

Frontend-leaning fullstack software engineer with 9 years of experience building web and mobile products. Led major initiatives including a multi-year Next.js migration, complex payment integrations, and feature development across TypeScript-based systems. Focused on performance, usability, and practical engineering that balances quality with real-world constraints.

TECHNICAL EXPERIENCE

TickPick - New York, New York

April 2019 - March 2026

Staff Software Engineer

January 2025 - March 2026

- Re-architected seating chart backend services and data models to scale large venues across TypeScript and Python systems
- Drove adoption of AI tools, optimizing prompts and refactoring codebases to improve developer efficiency and workflows

Senior Software Engineer

January 2022 - January 2025

- Led multi-year migration of TickPick's web platform to Next.js (App Router, TypeScript, Tailwind, Radix UI, Jest)
- Achieved significant gains in Core Web Vitals, leveraging Cloudflare Workers and frontend optimizations to improve SEO
- Championed web accessibility initiative, reworking core UI to meet WCAG standards and ensure ADA compliance

Software Engineer

April 2019 - January 2022

- Modernized web stack with React, ES6, Sass, and frontend tooling (Webpack, Babel)
- Delivered features across web and React Native platforms, maintaining feature parity and managing App Store releases
- Integrated payment technologies across web and mobile platforms (Apple Pay, Tipalti, Zip, Klarna, Affirm, PayPal, Google Pay)

Gartner - Stamford, Connecticut

October 2017 - April 2019

Software Engineer

- Build and maintain Gartner's Peer Insights web application primarily with ReactJS, Javascript (es6), and CSS (Sass)
- Set up and lay out the groundwork for the conversion of Peer Insights to NodeJS + Express + EJS
- Centralize AJAX Requests on client side to improve maintainability and completely retire JQuery

Viking Global Investors - Greenwich, Connecticut

September 2016 - September 2017

Full Stack and Devops Engineer

- Build and maintain Vikings' admin platform primarily with AngularJS, Javascript (TypeScript), CSS (LESS), C#, and SQL
- Engineer and maintain continuous integration pipeline with Bamboo and powershell scripts

EDUCATION

OREGON STATE UNIVERSITY

June 2016

- B.S. in Computer Science • GPA 3.88
- Application and theory of computing
- *Data Structures, Algorithms, Operating Systems, Software Engineering*

RENSSELAER POLYTECHNIC INSTITUTE

May 2013

- B.S. in Games, Simulation Arts and Sciences • Minor in Architecture • Cum Laude
- Development and design of games and user interactions
- *Game Development, Game Mechanics, Game Design, 3D Animation*

RELEVANT SKILLS

Main Technologies: ReactJS, React Native, SASS, TailwindCSS, NodeJS (express), NextJS, Webpack, Gulp, Claude

Languages: Javascript (es6 + typescript), HTML, CSS, C# (.net), C++, SQL, Python

Miscellaneous: VSCode, Git, Azure, Postman, Storybook UI, Radix UI, CloudFlare, Cursor
